# Introduce

Do you know!? Laika is one of the greatest dogs in history. Laika is a female, the first being sent into orbit around the Earth

After being captured by the wildlife collection team, it is unknown whether Laika has the necessary qualities of an "astronaut" or not, but scientists chose it to become one of the "Astronauts". join" secretly participating in the space exploration mission

Laika's dedication has left Aerospace Scientists with valuable data, promoting technology and space science later.

Inspired by Laika dog, we launched a special Project called Laika Dog.

Like that great dog, our project is ready to pioneer, create and grow, taking the foundation of a Project meme to the next level. Laika Dog will create a comprehensive, different ecosystem with quality products, helping the project to develop in the long run.

In the coming time, LaikaDog will continuously implement features on its platform including:

Double Reflection Mechanism

NFT Collections

NFT Minting and Marketplace

Laika Shop

Laika Metaverse

.....

Join us to discover the plans of LaikaDog's journey into space!

**Learn more:** <https://vi.wikipedia.org/wiki/Laika>

# NFT Collection

LaikaDog will open and sell Laika's image collection in particular and images of Dogs and pets in general in the form of NFT.

The artworks are built-in 2D, 3D designed by the creative team, bringing uniqueness and artistic value. NFT assets will be marked as owned by the buyer and anyone who wants to own the images needs permission from their owner.

These are also the NFTs that will be used and developed in future Laika Games and Laika Metaverse

# Product

## Double Reflection Mechanism

LaikaDog pays his long-term holders!

5% of all buy transactions and 5% of all sell transactions will be stored in the Laika Vault in BNB. Every 24 Hours LAI holders can claim LAI from the Laika Vault! You are able to claim the same percent of the vault that you hold of the supply of LaikaDog: for example, if you hold 5% of the total supply of LAI you can claim 5% of the LAI in the Vault.

Whenever holders claim, the LAI rewards pool will reduce, and thus your share will reduce as well. That's why you should claim it as soon as your cycle is ready.

## How to Claim BNB?

You can claim your rewards from the LAI Laika vault after 24 hours you purchase the LaikaDog token. The Laika Vault gets filled with 5% of buy and 5% of sell transactions and the claimable amount is decided based on how much LAI token you hold in your wallet connected to our Laika Vault DApp. For example, if 24 hours of the transaction amount is 2,000,000 LAI, there will be 100,000 LAI in the Laika vault. If you have 1% of the LAI token in your wallet, you can claim 1000 LAI per day.

Go to the Claim page on our website to open our Laika Vault DApp. Connect your wallet to the Laika Vault, and click the "Claim My Rewards" button. Please note that you must have a small amount of LAI in your wallet to cover it.

# LaiKa Shop

A special thing for users of LaikaDog is the Store system with real products sold and exchanged through our platform.

From the NFTs that users own, they can create exclusive t-shirts, mugs, hats, umbrellas, etc., and sell them through the store. For those with aesthetic and design aptitude, this will be a way to help them make more money from their NFT.

Laika Shop will be one of the first physical item stores on the Crypto market. This breakthrough will promote memecoin projects to develop and expand because of their applicability in life.

Professional Designers will have space to grow and create. This also helps LaikaDog increase the number of users from both buyers and sellers.

# NFT Minting and Marketplace

With the power of technology, we will launch a platform that is capable of minting NFT. Users can use LAI Token to pay minting fee and we guarantee the fee is the best on all platforms today.

The project development team has no control over users' NFT assets on LaikaDog's system, helping to ensure user ownership.

In parallel with NFT Minting, LaikaDog also launched Laika NFT Marketplace, allowing users to exchange, buy and sell NFTs. Create liquidity for NFTs and help connect buyers and sellers in the most convenient way.

The marketplace is built intelligently, allowing buyers and sellers to best value NFTs, helping NFTs to be sold at their true value.

# LaiKaDog Space P2E

With the aim of long-term development and right direction of the market, LaikaDog will develop NFT Game with content and plot revolving around uncle for Laika.

We will build a new universe where Laika is alive and on great missions. Through the features in the game, players can participate in new challenges and receive many attractive rewards.

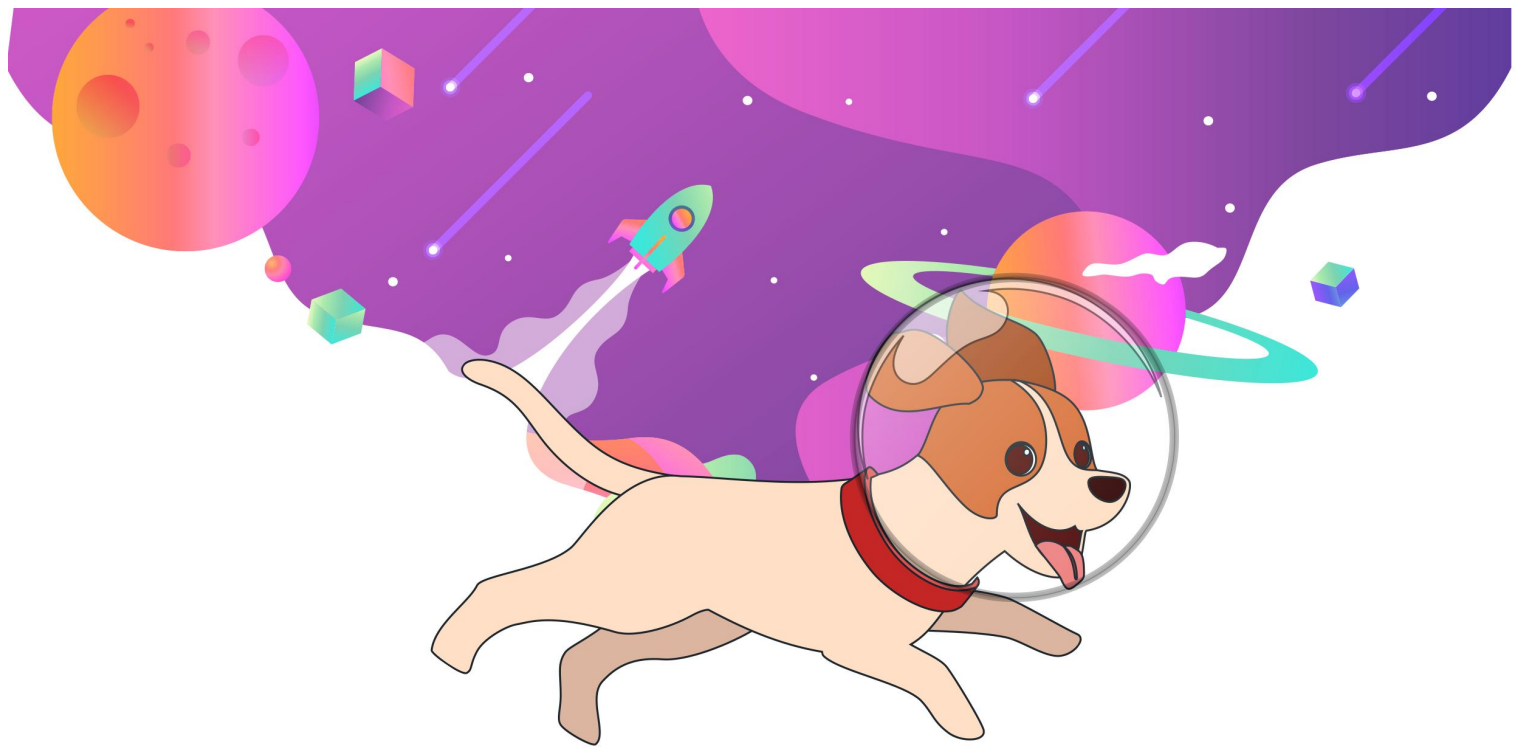

Players are involved in the journey to explore the vast universe, against powerful enemies with the dog Laika. You will collect heroes, spacecraft, equipment (NFT) to build your own army. There are 3 modes to play: adventure, PVE, PVP.

Users collect rewards after each level: exp, tokens, NFT items. These rewards are used to upgrade heroes, spaceships, skills to make you stronger or can be bought and sold on the marketplace. In addition to the earning part, you also experience the joy of playing

Currently, LaikaDog's NFT Game is in the process of researching, creating characters and building appropriate Game mechanics.

We plan to launch this Game in Q1 of 2022.

Hopefully this will be a breakthrough, helping LaikaDog attract more users.

# LaiKa Dog Metaverse

In line with market trends, in 2002 we will also launch LaikaDog's Metaverse space.

In the Metaverse virtual world, users will be impersonating other characters, under a new identity and exchanging and communicating like a real world.

You can go to the digital museum to see images of LaikaDog, you can shop or work in this virtual reality world.

LaikaDog Metaverse is a vast world, a culture, a society, an endless landscape with endless possibilities. Not only will players have the opportunity to collect assets (NFTs) and make money simply by playing, but we are going to give the players a metaverse with no limitations, no restrictions, and no guidelines. We are shifting the creative element into the hands of our communities. Their ingenuity will be the driving force of our ecosystem. Their creativity will result in the formation of digital worlds that surpass expectations and exceed imagination. In the Parallel, players are the creators and the game is their canvas
